- wall/chain mounting:

drill the mounting holes for 8mm diameter,
screw suspension universal to ceiling, screw tightly outside nut of regulation in the mounting hole,
place the line until the moment you reach needed lengths
and screw nut on again.

Placing the line deeply it makes fixture up.

If you need to make fixture down screw nut of regulation off
and put in fixture – line will go down.

h) fluorescent lamp mounting:

- lamps of correct power put to the fixture

i) put (INOX) and screw cover of fixture again

3. Important warnings:

- the manufacturer cannot be considered liable for any damages deriving from improper, wrong and unreasonable use of the fitting.

- any manipulation inside the luminar when power supply is on causes the risk of electric shock.

- manufacturer is not responsible for any flaws caused by avoid using this manual.

- manufacturer reserves a right to change the construction of the product.

The European Directive 2002/96/EC on waste electrical and electronic equipment, requires that electric and electronic devices must be disposed of in the normal household waste. The crossed out wheeled bin is reproduced in order to remember obligations towards separately collection. For correct disposal, please use authorized waste disposal facilities or returned to the distributor at the date a new lighting fitting is purchased. Lamps, if disposed together with the lighting fitting, shall not be broken up since they contain substances which are highly polluting for the environment. Unauthorized disposal of the foregoing waste material is punishable by law. More details of directive available at: <http://www.gios.gov.pl>
